

Bandi Bhargav Chowdary

Curriculum Vitae

EXPERIENCE

JAN 2026 – APR 2026

UCSI University, Kuala Lumpur, Malaysia

ML Research Intern (Remote)

Evaluated 10 Machine Learning algorithms and 2 Deep Learning models for diabetes classification across 5 medical datasets. AdaBoost achieved 99.47% accuracy. Conducted model evaluation, performance comparison, and research documentation.

MAY 2026 – JUL 2026

NIT Andhra Pradesh

Computer Vision Research Intern

Built AI-based automated answer script digitization and drone video analytics systems. Developed handwritten script evaluation pipelines with real-time inference capabilities. Applied computer vision techniques for drone footage analysis and automation.

MAY 2026 – JUL 2026

NIT Tiruchirappalli, Department of Computer Applications

Research Intern

Applied Machine Learning techniques for structured data classification problems. Conducted benchmarking of supervised learning models for departmental research publication. Performed data preprocessing, model training, evaluation, and result analysis.

EDUCATION

AUG 2023 – MAY 2027

Computer Science and Engineering

B.TECH

SASI Institute of Technology & Engineering

CERTIFICATIONS

Oracle AI Professional

Oracle AI Foundations

Generative AI (AWS)

Machine Learning with Python (IBM)

Introduction to MongoDB

Google Analytics Certification

Andhra Pradesh, India

+91 9491669919

SUMMARY

Full-Stack Developer specializing in MERN stack and AI-powered applications. Experienced in building scalable web platforms, RESTful APIs, and cloud-native systems using React.js, Node.js, MongoDB, and AWS. Strong foundation in Data Structures and System Design, with proven ability to reduce latency by 25% and support 100+ concurrent users.

PROJECTS

SmartSupport AI Customer Support Triage System

Developed an AI-powered ticket triage system that automatically classifies and routes support requests based on urgency and sentiment. Leveraged Gemini API and Pinecone for intelligent ticket analysis, prioritization, and efficient case management. Improved support workflow efficiency through automated ticket categorization and routing.

CareerCraft AI Career Recommendation Platform

Developed full-stack MERN platform delivering personalized career insights. Engineered recommendation system improving prediction accuracy by 35%. Boosted user engagement by 40% using data-driven logic.

Janasaarathi Smart Civic Assistance Platform

Integrated 20+ government services into a unified digital platform. Designed scalable REST APIs improving system efficiency. Enhanced accessibility for 100+ users through optimized workflows.

SKILLS

Languages: JavaScript, Python, Java

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js

Database: MongoDB, SQL

Cloud/Tools: AWS, Git, REST APIs

AI/ML: ML, DL, GenAI, RAG, Agentic AI

Core: DSA, System Design
